

# **Pavilions Needle Exchange**

## **SERVICES:**

When you access the exchange for the first time we will conduct a brief assessment with you before you collect your equipment.

You can pick up literature, or speak to a member of staff, who can give you advice on how to inject more safely and keep injecting sites clean.

We can also give you sexual health advice (including condoms & lube) and details of other needle exchanges in the city, for when we are closed.

You can get tested for HEP B, HEP C and HIV. HEP B vaccinations are offered to all service users accessing our needle exchange.

If you feel you are at a point where you want to stop using we can get you into treatment.

## **EQUIPMENT:**

Pavilions needle exchange allows service users to make up their own packs from the selection below:

- Various sized syringes & needles
- Filters
- Sterile water ampules
- Citric acid
- Vitamin C
- Pre-injecting cleaning swabs
- Stericups (to use in place of spoons)
- Mini sharps bins (to dispose of your used equipment & return to us for safe disposal)
- Condoms & lube
- Prenoxad pens (to help someone who has had an opiate overdose)

# CONFIDENTIALITY

This is an anonymous and confidential service, but when you access the Needle Exchange for the first time we will ask for some basic details.

This will not be passed on to any third party, but used for our own data reporting purposes.

Questions you will be asked include:

- Your Full Name (optional)
- Identifying Name
- Initials
- Date of birth
- Are you currently in treatment (Y/N)
- Gender
- Ethnicity
- Postcode (optional)
